PROFILE

A motivated and dedicated professional with a strong work ethic and a "if you do a job, you do it properly" attitude, gained from my role as Head Fencer for a rural fencing company. After gaining a bachelors degree from Wintec, I am now eager to transition into the field of software development, driven by a passion for technology and problem-solving. My hands-on experience in managing teams, assisting in coordinating projects, and ensuring quality and safety has equipped me with valuable skills in communication, organization, and critical thinking. I am committed to leveraging my diverse experience and strong work ethic to excel as a software developer, where I can contribute to innovative projects and continue to grow my technical expertise.

WORK EXPERIENCE

LS Rural Fencing LTD

2020 - PRESENT

Head Fencing contractor

As the Head Fencer at LS Rural Fencing, I led a dedicated team in the installation, maintenance, and repair of various fencing systems tailored to rural environments. My role encompassed project management, ensuring timely and efficient completion of fencing projects while maintaining the highest standards of quality and safety. I coordinated with clients to assess their needs and provide customized solutions, and trained junior staff in best practices and safety protocols. My time saw a significant improvement in job turnaround times and client satisfaction, reflecting my commitment to excellence and operational efficiency.

Since pursuing an education in software development, I have reduced my hours to part time work to focus on the next chapter of my life.
